Protesting the Affordable Care Act: The law’s “minimum coverage requirement,” or individual mandate provision, remains highly unpopular with much of the public, but it is only one of four main issues to be taken up by the nation’s highest court.
Narrative Matters

Scientists and doctors disagree about whether there is such a condition as "chronic" Lyme disease or "post-Lyme disease syndrome." Americans need the National Institutes of Health and basic science research to help determine the answer.

Health Policy Briefs

Health Policy Briefs provide clear, accessible overviews of timely and important health policy topics. The peer-reviewed briefs explore competing arguments and point out relevant research. Health Policy Briefs are available online and produced by Health Affairs through a grant from the Robert Wood Johnson Foundation.
