Narrative Matters

A patient in his nineties and in decline chooses the only legal way in most of the United States to hasten his death: He stops eating and drinking. His doctor wonders whether that is just or compassionate.

Health Policy Briefs

Health Policy Briefs provide clear, accessible overviews of timely and important health policy topics. The peer-reviewed briefs explore competing arguments and point out relevant research. Health Policy Briefs are available online and produced by Health Affairs through a grant from the Robert Wood Johnson Foundation.
